

## SUPPLIES NEEDED

Brown/Tan, Red, Yellow, Orange, and Black craft felt

Matching embroidery floss

Poly-fil Stuffing

Embroidery needle

Scissors

Hot glue gun

Visit [www.CraftsandPrintables.com](http://www.CraftsandPrintables.com) for the step by step tutorial and sew-along video

## PREPARATION

1. Print turkey pattern pieces (Page 2) on heavy card stock paper.
2. Cut out each piece. Use them as templates to trace and cut out the appropriate color felt pieces.

## MAKE THE FEATHERS AND BODY

1. Sew the tail (A) to the back of the body (B). Set aside.
2. Now we will work with the front side of the feathers (the other piece B). Start by placing your orange piece D's in the correct places. TIP: you can tack these down with a very small amount of glue so they don't move around on you. Sew each piece D into place.
3. Now move on to the smallest feather, yellow piece C. Repeat the same process.
4. You now have a completed front feather piece. Place the back piece B you made earlier together, right sides out and start to sew them together along the outside.
5. I recommend starting at one of the points marked with a square. Sew around the feathers and stop when you reach the other square.
6. Stuff the body with cotton fluff. Use a blunt ended tool to help fill in the feathers.
7. Stuff the main part of the body last and then finish sewing around.

## MAKE THE HEAD

1. Sew the eyes (F) onto one piece E.
2. Sew the snood (G) in place and then sew the beak (H) on last.
3. Begin sewing the two piece E's together to form the head. Stop about 3/4 of the way so you can insert some cotton fluff like you did with the body. Finish sewing around.

## FINISHING

Join head to body using a hot glue gun or craft glue.

x 1 RED

x 1  
YELLOW

x 2 BLACK
